ANNUAL INDEX OF ARTICLES, EDITORIALS, REVIEWS

(This December issue, not paged in time for inclusion in the index, should also be consulted.)

EDITORIALS

About Daylighting Again—too many schools are being constructed with wide expanses of glass, making them unfit for use of projected materials ..... June 279

Archives and Copyrights—AV aids are made to be used, not preserved, and should be up-to-date ..... May 227

Break Through the Audio Barrier—Increasing use of language laboratories must be accompanied by understanding of equipment and techniques ..... Nov. 561

Challenge in the Church Field—the magazine has done much to further AV in religious institutions, but realizes there is still a big job to be done ..... Feb. 68

Dollars for Your Ideas—research aspects of the National Defense Education Act are as important as equipment ..... Oct. 512

Emphasis on Audio—tools must remain basically usable, rather than be overdeveloped into "electronic wonderlands" ..... Apr. 174

Knowing What's Available—introducing the Aug. Blue Book, an aid to teachers and the development of the cross media approach Aug. 382

Misguided Scientists—"entertaining" and "interesting" must not be considered synonyms, especially pertaining to educational films ..... Jan. 15

Our Greatest Opportunity — significance of the National Defense Education Act ..... Sept. 463

Pointing South—Southern states have been leaders in non-commercial TV, handling of instructional materials, closed circuit TV ..... Mar. 122

Togetherness—a spirit of cooperation exists within the AV field and with its representative, **Educational Screen** ..... July 319

ARTICLES

Alterman, Rolland A., Tachistoscopic Teaching — increased attention-span, quicker grasp of reading, spelling, math, result from this method, which also employs ophthalmographs; metronoscopes; reading controllers, accelerators, pacers; rateometers; shadowscopes ..... June 282

Bailey, Albert R., The Importance of the Independent Educational Film Producer—the value of the small, independent producer lies in direct service, production unity, freedom and inclination to experiment ..... Jan. 23

Bissex, Henry S., How Overhead Projection Aids Large Group Instruction — this method is effective, relatively inexpensive, should be combined with printing and developing equipment ..... May 230

Carmony, Edwin, An Elementary Instructional Materials Center—Gary school provides central storage and service for AV and library materials ..... Oct. 514

Effective Flannel Boards — a do-it-yourself picture story ..... Mar. 130

Fitzwater, James P., Visualizing Chicago's Visual Education Story—a 3-screen approach, using films, slides, overhead transparencies, presents Chicago's visual education story to coordinators and principals ..... Sep. 468

Fullerton, Craig and Roberts, John, Movable Self-Contained Rear Projection—benefits of a portable rear projection unit for one-story buildings having few provisions for darkening ..... Mar. 129

Garcia, Robert, "Continuity of Life" Film Series Produced at Indiana University — productions showing in detail basic characteristics of plants and animals ..... Jan. 18

Geography Through Games — giant playground map, created with help of an overhead projector, aids Colorado children in learning geography ..... Oct. 520

Gibson, Romain, Can Tapes Teach?—Omaha experiment in teaching 7th grade Spanish proves tapes effective even when used by teachers unfamiliar with language ..... Apr. 180

Gidley, Charles F. and Hunt, Mary Alice, Give Your Pictures a Lift!—acetate method of transferring and preserving pictures ..... Nov. 566

Grassell, E. Milton, This Administrator Looks at Audiovisual in Perspective—Dr. Amo De Bernardis gives his views on AV budgeting and coordination from the administrator's standpoint ..... Nov. 562

Greene, James H. and Rising, Justus, Roto-Slap Boards for Classroom 3-D—rotating flannel boards prove good for demonstrating scale models, math problems, etc. ..... Nov. 570

Halvorsen, H. R., "Colorful" Card Catalog—use of color for cross filing instructional materials ..... Nov. 565

Hampleman, Richard S., Listening ! ! !—intelligent listening must be stimulated in students; it has been neglected in recent years ..... Apr. 175

Hart, William G., Informing the Philippine People — the National Media Production Center sends AV vans to bring informational films, recordings, etc. to the Philippine people ..... Oct. 524

Hartley, William B., Vim, Vigor, Vitality and Variety in the A-V Program—strong need for more spirited leadership at the local level; AV coordinator should be allowed enough time and be freed from routine duties ..... Jan. 16

Heinrich, June Sark, Teaching THEM Audio-Visually—AV aids are even more helpful with mentally retarded students than with more educable ones ..... May 232

Howard, Alexander H., Jr., Film Fit—importance of correct choice of film ..... Nov. 572

Kemp, Jerrold E., Producing Transparencies for College Instruction—classes benefit when teachers prepare their own materials; how-to-do-it ..... June 280

Kruse, William F., Some Notes on DAVI'S Ancestry—a survey of the earliest professional organizations in the field: continued in April ..... Mar. 134

Lepthien, Emilie V., Film Utilization Practices in Seventeen Elementary Schools — survey in the Chicago area shows considerable variation, greater use at primary levels, social studies most shown, recommendations of experts often ignored ..... Jan. 20

Luce, Arnold E., Flashfilm—Minnesota's Contribution to Better Driver Education—filmstrip and tachistoscope are combined to teach safety, judgment and "preventive" driving ..... Feb. 70

Lucas, Richard H., Safety Aspects of Audio-Visual Equipment — Underwriters' Laboratories use care and ingenuity in testing for safety hazards ..... Sept. 466

MacKenzie, M. M., Television in Physical Education — USAF Academy finds TV helpful in teaching and creating interest in sports and other motor skills ..... Oct. 516

Marty, Fernand L., Using the Language Laboratory — for efficient use, Middlebury College finds accompanying classwork must be modified and the lab should be open to students on a library basis ..... Apr. 176

Mersand, Joseph, Test Questions on the Mass Media—through exams, students in a New York high school keep up-to-date regarding the mass media ..... May 234

Moldstad, John, Let's "See" the School's Program—slides, transparencies, TV, films, and filmstrips can be used to inform the public of a school's virtues and deficiencies Feb. 72

Moore, J. Michael, Improving Language Teaching—practical methods of teaching languages involve both labs and visual aids ..... Nov. 568

New System Improves Service at the University of Washington Film Center—advance planning and systematized procedure lead to fast, accurate service ..... Sept. 464

Nicholas, V. R., Dry Mount Technique—how-to-do-it story ..... Jan. 22

O'Connor, Olwyn M., Do We Need Dewey?—knowledge of library practices provides excellent background for setting up and running AV department ..... June 288

Osborn, Laura, Building International Goodwill—AV helps children in Detroit schools become acquainted with other republics in the Western Hemisphere ..... Oct. 519

Reed, Janet S., Students Speak About Audio Learning — Middlebury students are enthusiastic about language set-up ..... Apr. 178

Roberts, Alvin B., Course in Field Photography—author helps teachers learn fundamental photographic techniques and form useful travelogues ..... Mar. 123

Roseman, George H., Who Has Sambo's Pants?—AV specialists defeat their purpose when rivalry and jealousy exist ..... Feb. 75

Salen, George P., Stick 'em Up!—simple, dependable methods for securing bulletin board displays ..... Feb. 76

Sanborn, William B., San Francisco's Audio Visual Materials Card Catalog — a complete system of all available materials ..... Aug. 384

Sands, Lester B., The A-V Building Coordinator—A Curriculum Leader—this official can indirectly influence curricula of teachers, administrators and students ..... May 228

Seehorn, R. W., Models for Industry—sale models are valuable for training engineers, artists, armed forces personnel, etc. ..... June 286

Smith, Carlton, Physics Film Course Aids Science Education — Harvey White film series helps stimulate interest in science and aids teachers in raising standards ..... Mar. 126

Stoddard, George D., The Power of Television in Teaching — TV has power and responsibility to open minds, enrich culture, as well as teach classroom subjects ..... June 284

Strauss, Marion, School Films for Homebound Pupils — in the St. Louis area, the Volunteer Film Association sees that shut-in children have the benefits of AV ..... Sept. 470

The Terrestrial Globe for Education in the Space Age—history and up-to-date use of the globe as a visual aid ..... Mar. 132

Wojnowski, Margaret, A High School Lab Classroom—a simple lab can be set up in ordinary classrooms with phonograph, tape recorder, headsets, individual volume controls ..... Apr. 183
